PROFESSIONAL EXPERIENCE

VP, Lead Technology Business Execution Consultant – Technology Resiliency | Wells Fargo Technology

May 2024 – Mar 2026

Led Technology Resiliency programs across Platform Services, managing enterprise continuity compliance for a broad portfolio of critical systems.

- Managed a portfolio of 157+ Business Continuity Plans enterprise-wide while directly owning 32 individual plans; led all recovery exercises and compliance reporting across Platform Services.
- Led Business Impact Analyses (BIA) and critical role exercises, strengthening organizational continuity readiness and regulatory standing.
- Integrated cloud-based data feeds from risk systems into Tableau and Power BI platforms, improving executive reporting timeliness and audit transparency.
- Partnered with Lines of Business and regulators to systematically track and close resiliency gaps, reducing compliance exposure across the division.
- Directed and mentored a team of Business Resiliency Coordinators and engineers, maintaining consistent delivery against enterprise goals.

Audit & Compliance Lead — Corporate Risk | Wells Fargo

Jul 2021 – Apr 2024

Drove compliance and risk assessment programs, regulatory reviews, and governance initiatives across the enterprise.

- Automated risk evaluation workflows using Tableau and Power BI, cutting quarterly audit reporting cycle time significantly and improving accuracy of governance outputs.
- Applied Basel III, CCAR, ICAAP, and liquidity risk frameworks to strengthen technology governance and regulatory reporting standards.
- Developed and optimized audit controls and assessment tools, increasing efficiency and measurably improving regulatory adherence across review cycles.
- Advised on enterprise risk strategy, enabling on-time and ahead-of-schedule completion of multiple regulatory commitments.

Operational Risk Senior Lead — Corporate Risk | Wells Fargo

Oct 2018 – Jul 2021

Risk Assessment, Merchant Services | Mar 2020 – Jul 2021

- Oversaw front-line risk controls across payments, fraud, and third-party risk domains; implemented mitigation strategies that demonstrably reduced payment fraud incidents.
- Delivered independent challenge to strategic decisions using analytics to surface emerging risks and inform governance priorities.

- Enhanced regulatory alignment through process mapping and improved risk reporting visibility across merchant services.

Enterprise Information Security, Cybersecurity | Oct 2018 – Feb 2020

- Led a team of 95 software and application engineers to execute a major enterprise cryptographic security initiative — completing 3 weeks ahead of schedule.
- Directed data-at-rest and endpoint encryption projects, materially improving enterprise data protection standards.
- Managed secure lifecycle management and version control for 24+ enterprise applications; coordinated authentication initiatives and BCP certification across multiple systems.

Treasury Finance Consultant — Corporate Treasury | Wells Fargo

Mar 2014 – Sep 2018

- Built dashboards and regulatory reports for senior leadership that reduced reporting cycle time by 30% and improved data-driven decision-making at the executive level.
- Delivered balance sheet and asset/liability analysis using QRM/CALM cycles to inform corporate treasury strategy.
- Supported SWIFT MT to ISO 20022 message conversion readiness and led UAT testing, business/system analysis, and cross-functional project delivery.
- Partnered with Corporate Treasury to optimize funding strategies while maintaining compliance with regulatory capital and liquidity requirements.

Business Process Analyst — Consumer Lending / Loss Control Technology | Wells Fargo Home Mortgage

Aug 2011 – Feb 2014

- Managed change control, defect analysis, and operational risk initiatives for consumer lending servicing platforms, improving system reliability and reducing operational errors.
- Oversaw configuration updates and QA processes for servicing platforms; advised internal teams and third-party vendors on operational risk mitigation strategies.
